FMC230 is WATER and DUST resistant real-time tracking terminal with 4G (LTE Cat 1) network coverage including 2G (GSM) fallback compatibility. It comes equipped with internal GNSS, LTE antennas, configurable digital, analog, negative and impulse inputs, three DOUT outputs, Bluetooth connectivity, and backup battery.

The device has an integrated possibility to enable Impulse Input for precise fuel flow meter data reading. Impulse based fuel usage monitoring is much more accurate than a different type of fuel metering sensors and it makes the FMC230 a perfect solution for high fuel usage machines like cranes, construction vehicles, mining machines, agriculture equipment.

Additionally, FMC230 device has IP67 certified casing which provides a total protection against dust and resistance to water in a depth of up to 1 meter for at least 30 minutes. As a result, FMC230 can be used in agriculture, construction and mining or any other fleet where harsh tracking conditions exists.
